## **TRADITIONAL GERMAN BREAD**

Experience and taste have shown that quality and flavor are best when the preparation is kept as natural as possible. That's why our bread contains absolutely no artificial or chemical additives. We make our bread according to age-old German bread baking tradition, giving the dough ample time to rise and baking it in a natural stone oven.

## **Flame Cake**

Flame cake is a specialty from Alsace and the neighboring Palatinate region. Flame cake originated around 1900 when tradition called for a flattened piece of bread dough to be placed in the oven before bread baking, in order to test the temperature. Flame cake got its name due to the fact that the oven's flames had not yet completely turned into embers when it was baked.
